Far-East Junket

To the Editor:

I note in your paper that a number of governors, representatives and senators are taking a junket to South Viet Nam, Japan, and other places in the Far East at taxpayer expense where they will be brainwashed by the State Department, CIA, Army, Navy, and Air Force. Surely these people could have been brainwashed in the Pentagon at much less expense.

Let us hope they will be well
dined and entertained. Ben H.
